Professional Summary

AI Full Stack Developer with 2+ year of professional experience building scalable web applications and backend services using React.js, Next.js, Node.js, TypeScript, NestJS, PostgreSQL, MongoDB, and REST APIs. Experienced in BFF/microservices architecture, Server-Driven UI, AWS-based deployment, API integration, debugging, and production workflows. Hands-on experience building AI-powered applications using LLMs, LangChain, RAG, and Generative AI technologies.

Skills

- **Programming Languages:** Python, JavaScript, Java
- **Frontend:** React.js, Redux, Next.js, HTML, CSS, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, FastAPI
- **Database & ORM:** MongoDB, PostgreSQL, MySQL, TypeORM
- **Cloud & Deployment:** AWS S3, Render, Docker
- **AI/LLM Ecosystem:** Generative AI, LLMs, LangChain, RAG, Multi-Agent Systems
- **Troubleshooting & Tools :** API Troubleshooting, Debugging, Error Handling, Postman, Git, GitHub
- **Architecture:** Microservices, Backend-for-Frontend (BFF), Server-Driven UI

Experience

Software Engineer | SoftScript Technology (Client: TripJack) Dec 2025 – Sept 2026

- Contributed to **TripJack's B2B & B2C travel platform**, developing frontend and backend workflows across flight, hotel, bus, and corporate travel modules using **React.js, Next.js, Node.js, PostgreSQL, TypeORM.**
- Developed and enhanced **Flight and Dashboard modules**, including **American Express (Amex) card payment** UI, wallet pop-up flows for improved user understanding, and admin functionality for **bulk downloading agent informatio**n.
- Contributed to the **UAE launch / signup flow** using **Next.js**, integrating multiple APIs and implementing **OCR-based document/data processing** as part of the onboarding workflow
- Integrated **Bus booking functionality into the admin dashboard**, including **Manage Carts, User Information, IP Listing, Calendar, and related management workflows**, connecting the Pluto frontend with backend microservices through the XMS Backend-for-Frontend (BFF) layer.

Freelance Frontend Engineer Freelance | Sept 2024 – Nov 2025

- Worked on multiple client-based freelance projects, developing responsive and user-focused web applications.
- Built **Login, Signup, Dashboar**d, Profile, and other application screens using React.js and Next.js.
- Integrated REST APIs for authentication, user management, dashboards, and application workflows.
- Implemented form validation, error handling, and reusable UI components.
- **Delivered client requirements within defined project timelines.**

Projects

Generative AI Resume Analyzer & Career Assistant

Python | BERT | LLMs | LangChain | RAG | Streamlit | PDF | AWS

- Developing a Generative AI-powered Resume Analyzer and Career Assistant that uses LLMs and NLP to process PDF resumes, extract skills, match candidates with job descriptions, and provide personalized, actionable career improvement recommendations.

Education

BBD Universit**y** — MCA (Data Science & Artificial Intelligence) 2026
